

I'm not robot!

NGK is one of the most important OE suppliers to two-wheeler manufacturers and offers the perfect spark plug for almost any motorbike or scooter. In total, NGK's motorcycle catalogue 2016/2017 lists Aftermarket spark plugs and spark plug caps for more than 9,500 vehicle applications. Compared to the last catalogue, the ignition specialist has added more than 1,000 vehicle applications, 300 of which can be attributed to motorcycles and scooters, 300 to quads and a further 300 to snowmobiles. For the first time, the catalogue also lists 165 applications for Side by Side Vehicles (SSV) to reflect the increased market demand within this segment. From a practical perspective, NGK has improved the tables by combining motorcycles and scooters in just one section. Furthermore, the tables include an extra column, which names the Iridium IX high-performance spark plug as alternative to standard spark plugs. Finally, the company has reworked the guidance on how to read NGK product codes on the spark plug to enable customers to gain as much information as possible about a given spark plug simply from its code. The catalogue comes in 13 languages. It is immediately available and can be downloaded as a PDF file from the download section of NGK's website. About NGK Spark Plug: NGK Spark Plug is one of the leading automotive suppliers. Specialised in the fields of ignition and sensor technology, the Company supplies customers in Original Equipment and Aftermarket across the globe. Its product portfolio comprises spark plugs, glow plugs, ignition coils and ignition leads under the brand NGK Ignition Parts as well as mass air flow and manifold absolute pressure sensors, lambda sensors, exhaust gas temperature sensors and NOx sensors under the brand NTK Vehicle Electronics. The Company runs production plants and sales organisations all over the world. With more than 14,000 employees, it generates an annual turnover of around 2.9 billion euros. NGK is represented on all continents and has 42 group companies, 24 production plants and 5 technical centres. NGK Spark Plugs, market leader in the automotive parts industry, has released a Part Finder app which is designed to help mechanics and other industry professionals find the parts they need from the palm of their hand. The app is available for iOS and Android devices via the App Store and Google Play. The innovative app has taken the Part Finder function from the website and brought it to a user-friendly, mobile-responsive platform. This exciting app is amongst the first of its kind to hit the market. Vanessa Greene, Marketing Manager at NGK says of the app launch, "We decided to develop the Part Finder app to make it even easier for mechanics, retailers and motor enthusiasts to quickly and accurately source the parts they need for automotive build and maintenance." "It's quick and easy for people to use when completing jobs," Greene adds. "There's no need to open up a web browser and go to the NGK website when you're pressed for time. With just the tap of a button, you can find the specific part numbers you need." Retailers, mechanics and motor enthusiasts are often short on time and will really benefit from the easy-to-use app. NGK Spark Plug products have a reputation in the industry for their high quality and reliability. This new app further enhances that reputation, making it easy for users to have their needs met. The Part Finder app allows users to search all automotive parts that are currently available from NGK and NTK. Additionally, the NGK Part Finder allows you to search across all categories including passenger, commercial, marine, motorcycle, scooter, snowmobile and more. NGK is paving the way for industry innovation and customer experience with the launch of its Part Finder app. Englisch - العربية French - العربية Catalogue Version: 54.37.39.38
